For most queries, make sure the fiscal year is current and the fiscal period is set to 14. If you want to look at a point in time, change the year and fiscal period to match what you are looking for.

October is the first month of the fiscal year and is designated as fiscal period 1 with September being fiscal period 12. If querying a previous fiscal year, use period 14, which captures all year-end entries.

Chart of Accounts should be "A"

Enter both the Fund and Organization that you wish to review. Leave other fields blank.

For Fund-Orgs with associated revenues (sales, fees and/or gifts), select "include revenue accounts." Please note that this will flip the signs on the balance information you see (a fund with a balance remaining will be displayed with a negative sign).
